

ANIL JANJAL

Full Stack Web & Mobile Application Developer

Open to React Native / Flutter Developer, Frontend Developer, Mobile App Developer & Full Stack roles

+91 9975541769 | ajjanjal2000@gmail.com | linkedin.com/in/anil | github.com/AnilJanjal | Pune, India

PROFESSIONAL SUMMARY

Full Stack Web & Mobile Application Developer with 3+ years of experience building scalable, production-ready web and cross-platform mobile applications for Android and iOS. Proficient in Flutter, React Native, React.js, Next.js, Node.js, Firebase, and MongoDB. Skilled in REST API integration, state management using Redux and Riverpod, responsive UI development with Tailwind CSS, and performance optimization. Experienced in CI/CD pipelines, cloud deployments on Vercel and AWS, and delivering applications across travel, healthcare, field service, and e-commerce domains in agile environments.

CAREER MILESTONES

- Built and delivered scalable web and cross-platform mobile applications for Android and iOS using Flutter, React Native, React.js, and Next.js
- Developed responsive frontend interfaces and reusable UI components for web and mobile platforms
- Worked on real-world projects including travel, healthcare, field service, and inventory management platforms
- Improved application performance, responsiveness, and user experience across multiple production applications

TECHNICAL SKILLS

Mobile Development: Flutter, Dart, React Native, Android, iOS, Cross-Platform Development

Frontend: React.js, Next.js, Tailwind CSS, Responsive UI Development, GSAP

Backend: Node.js, Express.js, REST APIs, Firebase, SSR (Next.js)

Databases: MongoDB, Firebase Realtime Database

State Management: Redux, Riverpod, Context API

Cloud & DevOps: AWS, Vercel, Netlify, Git, GitHub, CI/CD

Languages: JavaScript, TypeScript, Dart

Data & Visualization: Chart.js, Mapbox, Leaflet

Integrations: Stripe, Schema.org SEO, ShuftiPro

Tools: Postman, Figma

PROFESSIONAL EXPERIENCE

Frontend Developer | Cross-Platform | **Buddy4Travel (Remote / Hybrid — Australia)** January 2026 – Present

- Develop and maintain scalable frontend interfaces for the Buddy4Travel web and mobile platforms using React.js, Next.js, and Tailwind CSS
- Build cross-platform user experiences for Android and iOS using React Native and Flutter
- Integrate REST APIs, authentication flows, and real-time features to enhance application functionality
- Implement GSAP animations and responsive layouts for improved user experience across devices and screen sizes
- Collaborate with backend, design, and product teams in agile development workflows to deliver production-ready features

Junior Software Engineer | **SoftPhase Technologies Private Limited (Hybrid — Pune)** January 2024 – January 2026

- Developed responsive web and mobile interfaces using React.js, Next.js, React Native, Tailwind CSS, and HTML/CSS
- Built dashboards, analytics modules, and real-time data interfaces with REST API and Firebase integration
- Integrated Stripe payments, Mapbox and Leaflet for interactive mapping, and Chart.js for data visualization
- Implemented CI/CD pipelines and deployed applications on AWS, Vercel, and Netlify for reliable production delivery
- Optimized SSR performance with Next.js and MongoDB queries, improving data retrieval speed by 15%

- Applied Schema.org structured data for SEO improvements and implemented multilingual support across platforms

Trainee | [Newton School, Bangalore \(Remote\)](#)

November 2022 – December 2023

- Completed full stack development bootcamp focused on modern web technologies including MERN stack
- Built and deployed multiple projects using React.js, Node.js, Express.js, and MongoDB on Vercel and Netlify
- Gained hands-on experience in REST API integration, Redux state management, and frontend performance optimization
- Participated in code reviews and collaborative projects, strengthening problem-solving and agile workflow skills

KEY PROJECTS

Buddy4Travel Mobile Application (Android & iOS) — *Flutter / React Native*

- Implemented UI enhancements, GSAP animations, and performance improvements for the Buddy4Travel consumer app
- Optimized cross-platform responsiveness; collaborated with backend and product teams to deliver scalable features

Buddy4Travel Partner Application (Android & iOS) — *Flutter / Dart*

- Developed cross-platform mobile app for travel partners with responsive UI components and REST API integration
- Built authentication flows, dashboard interfaces, and real-time data sync using Firebase

Website (B4T) — *React.js / Next.js / Tailwind CSS*

- Built premium responsive frontend with Tailwind CSS and GSAP animations for mobile and desktop
- Implemented multi-step flight booking system, real-time tracking with Mapbox and Leaflet, and Chart.js analytics
- Integrated Stripe payments, ShuftiPro verification, Schema.org SEO, and multilingual support (i18n)
- Optimized with code-splitting, dynamic imports, and SSR via Next.js for performance and SEO

FieldServio — *Field Service Management · Next.js / Redux / AWS*

- Built comprehensive field service management platform with customer management, inventory control, and financial reporting
- Developed admin dashboards with real-time updates using Firebase; deployed on AWS with CI/CD for enterprise scalability

MediMizer — *Hospital Management · Next.js / Node.js / Firebase*

- Built hospital management system with SSR-based performance, parts tracking, and medical equipment management
- Integrated Firebase for real-time data sync and secure authentication; added analytics dashboards for healthcare providers

FieldXpress (Android & iOS) — *React Native / Redux / Firebase*

- Developed mobile app for field technicians to view tasks, update job statuses, and capture customer signatures
- Incorporated push notifications and offline capabilities using Firebase, boosting field technician productivity by 20%

SoftBuild — *Inventory Management · MERN Stack*

- Built inventory management solution for construction materials with multi-user role support and real-time reporting
- Optimized MongoDB queries with indexing strategies, achieving 15% faster data retrieval

ShopSwift (Android & iOS) — *Mobile E-Commerce · React Native*

- Designed mobile e-commerce app with product browsing, cart management, order placement, and delivery tracking
- Integrated Stripe payment gateway and optimized for cross-platform performance on iOS and Android

EDUCATION

Full Stack Web Development

2022 – 2023

Newton School, Bangalore

Bachelor of Science (B.Sc.)

2018 – 2021

Dr. Babasaheb Ambedkar Marathwada University

CERTIFICATIONS

- Full Stack Web Development Certification — Newton School, Bangalore (2023)
