# ANIL JANJAL

**Full Stack Web & Mobile Application Developer**

+91 9975541769 | ajjanjal2000@gmail.com | LinkedIn | GitHub | Pune, India

## PROFESSIONAL SUMMARY

Full Stack Web & Mobile Application Developer with 3+ years of experience building production web and cross-platform mobile applications. Hands-on with Flutter, Dart, React Native, React.js, Next.js, Node.js, Firebase, MongoDB, REST APIs, Redux, and Riverpod. Experienced in responsive UI development, API integration, performance optimization, CI/CD, and cloud deployment. Currently leading hands-on product and software development at Akshanic Technologies Private Limited while remaining focused on full-stack, frontend, Flutter, React Native, and mobile engineering roles.

## TECHNICAL SKILLS

**Mobile:** Flutter, Dart, React Native, Android, Cross-Platform Development
**Frontend:** React.js, Next.js, JavaScript, TypeScript, Tailwind CSS, Responsive UI Development
**Backend & APIs:** Node.js, Express.js, REST APIs, Firebase
**Databases & State:** MongoDB, Firebase Realtime Database, Redux, Riverpod, Context API
**Cloud & DevOps:** AWS, Vercel, Netlify, Git, GitHub, CI/CD
**Tools & Integrations:** Postman, Figma, Stripe, Mapbox, Leaflet, Chart.js, ShuftiPro

## PROFESSIONAL EXPERIENCE

**Founder & Director | Akshanic Technologies Private Limited** | *Jul 2026 - Present* | India
- Lead hands-on product and technology development across web and mobile platforms, including product planning, technical architecture, implementation, testing, deployment, and continuous improvement.
- Lead development of proprietary products including 4Gear, while managing software projects end-to-end and making day-to-day technical and product decisions.
- Guide team members, assign and review work, resolve technical challenges, coordinate delivery, and support business development, partnerships, and operational execution.
- Work directly with Flutter, React.js, Next.js, Firebase, APIs, and related technologies across product and client-facing software initiatives.

**Frontend Developer | Cross-Platform | Buddy4Travel (B4T), Australia** | *Jan 2026 - May 2026* | Remote / Hybrid
- Developed and maintained frontend components and user interfaces for Buddy4Travel digital platforms.
- Implemented responsive and scalable UI, resolved UI issues, improved performance, and supported cross-device compatibility.
- Collaborated with backend, design, and product teams to support development and improvement of the platform.

**Junior Software Engineer | SoftPhase Technologies Private Limited** | *Jan 2024 - Jan 2026* | Hybrid - Pune
- Developed responsive web and mobile interfaces using React.js, Next.js, React Native, Tailwind CSS, and HTML/CSS.
- Built dashboards, analytics modules, and real-time interfaces with REST APIs and Firebase; integrated Stripe, Mapbox, Leaflet, and Chart.js.
- Implemented CI/CD and deployed applications on AWS, Vercel, and Netlify; optimized Next.js SSR and MongoDB data access.

**Trainee | Newton School** | *Nov 2022 - Dec 2023* | Remote
- Completed full-stack development training focused on the MERN stack and built deployed projects using React.js, Node.js, Express.js, MongoDB, Redux, and REST APIs.

## SELECTED PROJECTS

**4Gear - Vehicle Booking Mobile Application** — *Flutter / Dart / Firebase / REST APIs*

- Developed an Android vehicle-booking application supporting bike, auto, car, and pickup categories with customer and vehicle-partner workflows.
- Worked on authentication, location-based booking, fare estimation, booking lifecycle/status management, start-OTP flow, API/payment integration, testing, debugging, and release preparation.

**4Gear - Vehicle Booking Web Platform** — *Next.js / React.js / APIs / Location-Based Workflows*

- Developed a responsive web platform for vehicle discovery and booking, including pickup/destination selection, fare estimation, booking confirmation, provider acceptance, status tracking, and completion workflows.
- Built partner-facing flows for registration, vehicle listing, pricing/service radius, document submission, verification, booking management, and earnings-related functionality.

**Akshanic Technologies - Corporate Website** — *Next.js / React.js / Responsive Web Development*

- Developed the official corporate website representing Akshanic's products, platforms, software services, and business portfolio.
- Handled website architecture, responsive frontend implementation, performance-focused development, deployment, and business-enquiry presentation.

**Buddy4Travel Mobile Application (Android & iOS)** — *Flutter / React Native*

- Implemented UI enhancements, GSAP animations, and performance improvements for the Buddy4Travel consumer app.
- Optimized cross-platform responsiveness; collaborated with backend and product teams to deliver scalable features.

**Buddy4Travel Partner Application (Android & iOS)** — *Flutter / Dart*

- Developed cross-platform mobile app for travel partners with responsive UI components and REST API integration.
- Built authentication flows, dashboard interfaces, and real-time data sync using Firebase.

**Website (B4T)** — *React.js / Next.js / Tailwind CSS*

- Built premium responsive frontend with Tailwind CSS and GSAP animations for mobile and desktop.
- Implemented multi-step flight booking system, real-time tracking with Mapbox and Leaflet, and Chart.js analytics.
- Integrated Stripe payments, ShuftiPro verification, Schema.org SEO, and multilingual support (i18n).
- Optimized with code-splitting, dynamic imports, and SSR via Next.js for performance and SEO.

**SoftBuild - Inventory Management** — *MERN Stack*

- Built inventory management solution for construction materials with multi-user role support and real-time reporting.
- Optimized MongoDB queries with indexing strategies, achieving 15% faster data retrieval.

## EDUCATION & CERTIFICATION

**Bachelor of Science (B.Sc.)** | Dr. Babasaheb Ambedkar Marathwada University | 2018 - 2021

**Full Stack Web Development** | Newton School, Bangalore | 2022 - 2023

Certification: Full Stack Web Development Certification - Newton School (2023)
